Update of FLEX Connection Specifications (Ver.DS.17.3)

The FLEX Connection Specifications of Market Information System will be updated to Ver.DS.17.3 as described below.

1. Connection Specifications

Connection Specifications (Version No.)	Availability	(reference) Last Version
FLEX Connection Specifications (Ver.DS.17.3) Effective date: Apr. 1, 2021	MICS (Market Information Client System)	Ver.DS.17.2 Update date: Jan. 29, 2021 Effective date: Feb. 1, 2021

2. Summary of the Changes

- (1) Clarification of operations during failure based on the discussion in the 'Council for Recurrence Prevention Measures' and the 'Specialist Working Group for Recurrence Prevention Measures' in Response to System Failure¹. [System Operation]
- (2) Minor changes [Standard]

*For more information, please refer to the revision history of each specifications document.

3. Others

- We will publish the draft specification concerning improvement of the TCP request function in April 2021.
- After the publishment, the briefing session about those changes will be held and we will inform you of details at a later date.
